## PICK YOUR EDGE

**Straight Edge** – Allows a smooth and clean cut. When carving no fibres are torn out of the meat. This edge can be used for firm and soft food like meat, vegetables and fruit.

**Serrated Edge** – The wavy or serrated edge allows an easy cut through crusty food like a traditional roast and crispy bread.

**Hollow Edge** – When cutting an air pocket is created between the hollow edge and the slice. This prevents food from sticking to the blade and allows for finer slices.

## Elegance Fully Forged Cutlery

- A specially designed grip; clean, stylish handle – the right choice for those who value comfort and style alike (polypropylene handles)
- Set includes a 2 1/2" Peeling, 3 1/2" Paring, 6" Utility, 6" Flexible Boning 7" Santoku-Granton Edge, 8" Bread-Serrated Edge, 10" Chef's, 10" Carving Fork-Straight, 10" Steel and Cutlery Case
